www.asco.org
ASCO Journals Digital Library

Stay current with the latest advances in oncology and save money. Choose an ASCO Journals Digital Library subscription in 2017 and save 20% off the regular online rates. Your users also benefit from our redesigned journal Web sites, featuring easier navigation and a mobile-friendly experience.

See page 11 for details.
About ASCO

The American Society of Clinical Oncology (ASCO) is the world’s leading organization representing physicians and health care professionals who treat people with cancer. ASCO has more than 40,000 members across 130 countries and is recognized as a trusted source of cancer information worldwide.

ASCO Journals

ASCO publishes the most widely cited oncology journal that focuses on clinical cancer research, *Journal of Clinical Oncology*. Its editors, reviewers, and more than 200 editorial board members consist of renowned physicians and top thought leaders in clinical oncology.

*Journal of Oncology Practice* focuses on key issues in the delivery of efficient, high-quality cancer care.

*Journal of Global Oncology* is an open access journal that focuses on advancing cancer care and research in resource-limited settings. Add this FREE resource to your library collection today!

ASCO will begin to publish two new journals in emerging, multidisciplinary fields in 2017: *JCO™ Clinical Cancer Informatics* and *JCO™ Precision Oncology*.

ASCO Meeting Products

ASCO Virtual Meeting allows your users to watch and listen to hundreds of presentations from the ASCO Annual Meeting and thematic symposia held each year.

ASCO Meeting Slides provide high-resolution, downloadable slides from all captured presentations from the ASCO Annual Meeting and thematic symposia.
Journal of Clinical Oncology®
Official Journal of the American Society of Clinical Oncology

Editor-in-Chief: Stephen A. Cannistra, MD, Boston, MA

Journal of Clinical Oncology (JCO) is the most widely read oncology periodical in the world, according to the semi-annual survey conducted by Kantar Media. Published thrice monthly, it is the foremost peer-reviewed journal focusing on clinical cancer research, and the authoritative source for current information on the diagnosis and treatment of patients with cancer.

IMPACT

Journal of Clinical Oncology had 141,362 total citations according to the 2015 Journal Citations Reports® (Thompson Reuters, 2016), ranking first in the oncology category. JCO also ranks first in other key scholarly metrics, including Eigenfactor and the Google Scholar h5-index.

FEATURES

Original Reports are the focus of JCO, but this groundbreaking research is enhanced by selected Reviews, Editorials, Commentaries, Podcasts, and other articles that relate to the care of patients with cancer. JCO also has a Rapid Communications program that puts important research on the fast track.

Original Reports
JCO provides access to the most clinically relevant articles with a focus on information that will improve cancer treatment plans and patient outcomes. Content is organized by disease type so research can be quickly reviewed by specialty.

Review Articles
Invited and unsolicited clinically-relevant comprehensive reviews fulfill an unmet need in the medical literature and are published as stand-alone articles or as part of a JCO Special Series issue.

Educational Articles
These article types include Oncology Grand Rounds, which are case-based descriptions of patient management that place the findings of original reports into a practical, real-world context. Understanding the Pathway articles provide a concise explanation of the biology behind a new drug or treatment approach. Biology of Neoplasia articles cover timely topics in the basic science of cancer.

Art of Oncology
Uplifting articles that focus on the experience of suffering from cancer or of caring for people diagnosed with cancer.

Important Pricing Notes

1. Prices are in effect from September 1, 2016, through August 31, 2017. Prices are subject to change.
2. Print-only subscriptions, or additional print copies, are available for $886 in the US and $1,281 outside the US.
3. Subscribers outside the US, add $150 per print subscription for expedited delivery.
5. Prices quoted are in US dollars and payments must be made in US dollars.
6. Except on consortia offers, the Publisher allows for a 5% discount on Tiers 1-3 to recognized subscription agents.

JCO Special Series
Each year JCO publishes authoritative updates on important topics in oncology practice. The 2017 Special Series will cover:

- Genomics
- Central Nervous System

ASCO Meeting Abstracts
Every year thousands of abstracts are presented at the ASCO Annual Meeting and thematic symposia that contain results of the latest clinical cancer research. These valuable findings are published as online supplements to JCO and are included as part of your subscription.

ASCO Clinical Guidelines
Using the best available evidence, ASCO expert panels identify and develop practice recommendations for specific areas of cancer that would benefit from the availability of practice guidelines. These recommendations serve as a guide for oncology professionals and outline appropriate methods of treatment and care.

The JCO Legacy Archive includes online full-text back issues of Journal of Clinical Oncology from Volume 1 (January 1983) through Volume 21 (December 2003), and is available for a one-time purchase.

- Gain access to nearly 60,000 pages of authoritative oncology content.
- Supplement your existing access to current JCO content.
- Build your online collection with permanent data rights to these back issues.

Journal of Oncology Practice®
The Authoritative Resource for Practicing Oncology

Editor-in-Chief: John V. Cox, DO, FASCO, Dallas, TX
Deputy Editor: James O. Armitage, MD, FASCO, Omaha, NE

Journal of Oncology Practice (JOP) provides oncologists with information and tools to enhance practice efficiency and promote a high standard of care. With the addition of a new clinical section and today’s heightened scrutiny of quality and value in cancer care delivery, JOP should be part of every medical library’s collection.

IMPACT

Journal of Oncology Practice is now part of the Thompson Reuters Emerging Sources Citation Index. JOP articles have been indexed in MEDLINE since 2012.

FEATURES

Original Reports
JOP research reports focus on cancer care delivery, quality and value, the business of oncology, and health policy issues. These reports feature new data and best practice approaches that oncologists can apply immediately to their practices.

Clinical Reviews
These practical reviews, each with commentaries written by recognized thought leaders in oncology, provide busy clinicians with expert opinions on challenging clinical problems. Every issue of JOP also features a Case Report that tells the story of a difficult case from the author’s own experience.

Quality in Action Library
These brief, structured papers provide actionable lessons and resources that inform and inspire oncologists to measure and improve the quality and efficiency of cancer care delivery.

ASCO Clinical Guideline Summaries
These helpful summaries provide clinicians with a more user-friendly version of ASCO’s full clinical guidelines.

Original reports and clinical reviews in JOP are enhanced by selected Editorials, Commentaries, and Podcasts that provide further insight and depth to the original research.
### JOP Special Reports
Each year JOP publishes special reports on key trends and benchmarks for oncology practices.

### State of Cancer Care in America
This special report provides detailed information about physician productivity and staffing, pharmacy operations, practice management, clinical data density, and radiation oncology. Data are presented in an easy-to-understand format using nearly 100 pie charts and bar graphs.

### Quality Care Symposium
This special issue brings you content of many of the presentations from the ASCO Quality Care Symposium. Included are succinct summaries provided by symposium speakers as well as full-length manuscripts that describe several of the high-profile research presentations.

5. Prices are quoted in US dollars and payments must be made in US dollars.
6. Except on consortia offers, the Publisher allows for a 5% discount on Tiers 1–3 to recognized subscription agents.
**JCO™ Clinical Cancer Informatics**

**Editor-in-Chief:** Debra Patt, MD, MPH, MBA, Austin, TX

**JCO Clinical Cancer Informatics (JCO CCI)** is an interdisciplinary journal publishing clinically relevant research based on biomedical informatics methods and processes applied to cancer-related data, information, and images.

In addition to original research, JCO CCI publishes reviews, editorials, and commentaries, reporting on biomedical informatics studies relevant to cancer treatment, care delivery, outcomes, and prevention. The publication also seeks papers that advance the development, interpretation, and clinical application of cancer informatics research.

The first articles are scheduled to be published in late 2016 or early 2017.

JCO™ Precision Oncology

Editor-in-Chief: James M. Ford, MD, Stanford, CA

JCO Precision Oncology (JCO PO) publishes original research, reports, opinions, and reviews that advance the science and practice of precision oncology and define genomics-driven clinical care of patients with cancer.

Innovative and timely scientific and educational content provide a deeper understanding of actionable cancer genomics, personalized translational and clinical oncology research, and recent treatment advances based on tumor molecular profiling. The scope of publications includes all types of clinical research (basket trials, exceptional response results, informatics, mechanism and evidence-based case reports and small series of educational value), and extensive expert-driven commentary, editorials and reviews considering the challenges and value of targeted therapies based on genomic analyses.

The first articles are scheduled to be published in late 2016 or early 2017.

Journal of Global Oncology®

Editor-in-Chief: David Kerr, MD, DSc, Oxford, United Kingdom

Journal of Global Oncology (JGO) is an online-only, open access journal that fulfills a growing need for high-quality literature on the array of challenges that health care professionals in resource-limited settings face in caring for patients with cancer and in conducting research.

Currently, it is estimated that nearly 66% of all cancer deaths occur in low- and middle-income countries, and this is forecast to increase to 70% by 2030.¹

JGO focuses on cancer care, research, and care delivery issues unique to countries and settings with limited health care resources. Peer-reviewed articles cover:

- Cancer Treatment and Diagnosis
- Palliative and Supportive Care
- Prevention
- Implementation
- Barriers to Care
- Epidemiology
- Health Policy

Article types include Original Reports, Reviews, Commentaries, Correspondence, Special Articles, Case Reports, and Editorials.

Journal of Global Oncology is funded through ASCO’s Conquer Cancer Foundation, National Cancer Institute, CRDF Global, National Science Foundation, and Novartis Oncology.

¹ Global Status Report on Noncommunicable Diseases: 2010. World Health Organization

Journal of Global Oncology® is a registered trademark of the American Society of Clinical Oncology, Inc.

Journal of Global Oncology makes all content freely available to all researchers worldwide.

Add this valuable resource to your library collection today!
Keep Your Users Up to Date
Get online access to four peer-reviewed publications with a single subscription. **You save 20% off the regular rates** and ensure that your users have access to the full range of oncology content from ASCO journals, including two new publications in the promising fields of clinical cancer informatics and precision oncology. The subscription package includes:

**Journal of Clinical Oncology**, now in its 35th year of publication, features the best therapeutic advances in oncology that are often adopted throughout the world.

- **36 issues, plus archive access back to 2004**

**Journal of Oncology Practice** provides the latest health care delivery research for improving quality and value in cancer care. JOP also contains practical clinical reviews and case studies for busy oncologists.

- **12 issues, plus archive access back to 2005**

**JCO Clinical Cancer Informatics** is a new online-only journal that publishes clinically relevant research based on biomedical informatics methods and processes applied to cancer-related data, information, and images.

- **New!**

**JCO Precision Oncology** is a new online-only journal that seeks to advance the science and practice of precision oncology and define genomics-driven clinical care of patients with cancer.

- **New!**

ASCOr® Virtual Meeting

Stay abreast of the latest cancer research presented by oncology experts at the ASCO Annual Meeting and thematic symposia held each year.

An **ASCO Virtual Meeting** subscription allows your users to watch and listen to hundreds of captured sessions from ASCO meetings on their computer, tablet, or mobile device within 4-6 hours of these live events. Meetings included in this content package for 2017 are:

<table>
<thead>
<tr>
<th>Meeting Name</th>
<th>Date</th>
</tr>
</thead>
<tbody>
<tr>
<td>ASCO Annual Meeting</td>
<td>June 2–6, 2017</td>
</tr>
<tr>
<td>Gastrointestinal Cancers Symposium</td>
<td>January 19–21, 2017</td>
</tr>
<tr>
<td>Cancer Survivorship Symposium</td>
<td>January 27–28, 2017</td>
</tr>
<tr>
<td>Genitourinary Cancers Symposium</td>
<td>February 16–18, 2017</td>
</tr>
<tr>
<td>ASCO-SITC Clinical Immno-Oncology Symposium</td>
<td>February 23–25, 2017</td>
</tr>
<tr>
<td>ASCO Quality Care Symposium</td>
<td>February 23–25, 2017</td>
</tr>
<tr>
<td>Palliative Care in Oncology Symposium</td>
<td>October 27–28, 2017</td>
</tr>
</tbody>
</table>

Tap into the world’s premier oncology event with access to more than 150 sessions and 1,000 presentations across all disease types.

Discover novel approaches and emerging options for multidisciplinary care of patients with gastrointestinal cancers.

Explore survivorship issues that both primary care physicians and oncologists are faced with throughout the cancer care continuum.

Discover new scientific data alongside practical discussions of how to apply these emerging approaches in real-world GU oncology.

Explore clinical and translational research in immuno-oncology and the implications for clinical care.

Discover strategies and methods for measuring and improving the quality and safety of cancer care.

Explore new insights on the increased integration of palliative care with cancer care.
ASCO® Meeting Slides

An ASCO Meeting Slides subscription allows users to browse, review in detail, and download the slides that were used in the captured presentations (pending presenter permission) for the ASCO Annual Meeting and thematic symposia. The slides are high-resolution images suitable for use in your own presentations.*

Benefits of an ASCO Meeting Products Subscription

- Search by presenter, keyword, disease track, and more
- Gain knowledge of detailed presentation data
- Access archive of previous ASCO meetings back to 2013
- No costly travel expenses or time away from work for users
- Usage reports available upon request

Institutional subscription rates are based on tiers. See page 14 for tier descriptions.

Important Pricing Notes

1. Discounts are not available to subscription agents for these products.

*This content is made available for your personal use, educational advancement, or professional development and does not include re-use for opportunities with commercial or industry support. Learn more about ASCO® Meeting Products at: meetinglibrary.asco.org
2017 Institutional Subscription Tiers

**TIER 1**
- Single-campus associate and 2-year community college
- High school/secondary school
- Municipal or public library
- Private practice office

**TIER 2**
- Undergraduate/baccalaureate or masters level college/university, non-PhD granting
- Statewide multi-campus associate and 2-year community college system
- Professional membership organization or industry trade association, limited to staff
- Health policy or advocacy non-profit institution or charitable organization, limited to staff
- Medical specialty certification board, limited to staff
- Community hospital not affiliated with a medical school

**TIER 3**
- Doctoral university without a medical school
- Teaching or research hospital not affiliated with a medical school
- State, provincial, regional, or local government agency or ministry

**TIER 4**
- Doctoral university with a single medical school or affiliated hospital
- Teaching or research hospital affiliated with a medical school
- Non-profit research institute

**TIER 5**
- Doctoral university with 2 or more medical schools and/or affiliated hospitals
- Medical school with a health care system/clinics
- Hospital system or regional health care network
- For-profit university
- National government agency or ministry
- Government research institute or national research library
- Corporation or for-profit organization

**TIER 6**
- Consortia or special license

**Important Tier Description Notes**
1. All tier assignments are subject to periodic evaluation by the Publisher.
2. Institutions are assigned to Tiers 1-3 if they operate from a single site at a single geographic location except where noted. A single institution with more than one site or location (e.g., a research university with a teaching hospital or with multiple geographically dispersed campuses) is classified as Tier 4 and prices are negotiated. Individually negotiated multi-site licenses (Tiers 5-6) are required for consortia, corporations, and other institutions having shared network access.
3. For multi-site licenses, please contact the appropriate sales representative on page 15 for a quote.

Ordering Information

Place a Subscription Order
To obtain a quote or place an order, please contact your sales representative as noted above.

Site License
All institutional subscribers qualify for a site license. Site licenses provide online access for more than one viewing of content at a time via IP addresses. A site license subscription authorizes use at a localized site. A “site” is an organizational unit, and may be academic or corporate.

For organizations located in more than one city, each city office is a separate site. For organizations within the same city that are administered independently, each office is a separate site. For example, each campus in the State University of New York system is a separate site, and each branch or office of Merck is a separate site.

Payments
All subscription rates shown are in US dollars. Payment must also be made in US dollars. Payment methods accepted are credit card, checks, and wire transfers. ASCO Federal Tax ID number is 13-6180380.

Claims
Electronic back issues are available through our online journal archives. Printed copies of back issues are available for purchase at the single-issue rates. All orders must be made through ASCO Customer Service and prepaid in US dollars.

Printed replacement issues are available free of charge for up to three requests if request is received within 3 months of the mail date. Replacement issues claimed beyond the 3-month limit must be prepaid at the single-issue rates.
