ASCO Journals Digital Library

Stay current with the latest advances in oncology and save money. Choose an ASCO Journals Digital Library subscription in 2019 and save 20% off the regular online rates. Your users also benefit from our redesigned journal websites, featuring easier navigation and a mobile-friendly experience.

See page 11 for details.
About ASCO

The American Society of Clinical Oncology (ASCO) delivers world-renowned, peer-reviewed content to keep your users at the forefront of ever-changing oncology science and clinical practice. ASCO has nearly 45,000 members in more than 150 countries and is a trusted source of cancer information worldwide.

ASCO Journals

ASCO publishes the most widely cited oncology journal that focuses on clinical cancer research, Journal of Clinical Oncology®. Its editors, reviewers, and more than 200 editorial board members consist of renowned physicians and top thought leaders in clinical oncology.

Journal of Oncology Practice® focuses on key issues in the delivery of efficient, high-quality cancer care.

Journal of Global Oncology® is an open access journal that focuses on advancing cancer care and research in resource-limited settings. Add this FREE resource to your library collection today!

JCO® Clinical Cancer Informatics, leveraging data to inform cancer care, and JCO® Precision Oncology, advancing the science and practice of precision oncology and defining genomics-driven clinical care of patients with cancer.

ASCO Meeting Products

ASCO Meeting Videos allow your users to watch and listen to hundreds of presentations from the ASCO Annual Meeting and thematic symposia held each year.

ASCO Meeting Slides provide high-resolution, downloadable slides from all captured presentations from the ASCO Annual Meeting and thematic symposia.
Journal of Clinical Oncology®
Official Journal of the American Society of Clinical Oncology

Editor-in-Chief: Stephen A. Cannistra, MD
Harvard Medical School and Beth Israel Deaconess Medical Center

Journal of Clinical Oncology (JCO) is the most widely read oncology periodical in the world, according to the semi-annual survey conducted by Kantar Media. Published thrice monthly, it is the foremost peer-reviewed journal focusing on clinical cancer research, and the authoritative source for current information on the diagnosis and treatment of patients with cancer.

IMPACT

JCO had 149,617 total citations according to the 2016 Journal Citation Reports® (Clarivate Analytics, 2017), ranking first in the oncology category. JCO also ranks first in other key scholarly metrics, including Eigenfactor and the Google Scholar h5-index.

FEATURES

Original Reports are the focus of JCO, but this groundbreaking research is enhanced by selected Reviews, Editorials, Commentaries, Podcasts, and other articles that relate to the care of patients with cancer. JCO also has a Rapid Communications program that puts important research on the fast track.

Original Reports
JCO provides access to the most clinically relevant articles with a focus on information that will improve cancer treatment plans and patient outcomes. Content is organized by disease type so research can be quickly reviewed by specialty.

Review Articles
Invited and unsolicited comprehensive reviews fulfill an unmet need in the medical literature and are published as stand-alone articles or as part of a JCO Special Series issue.

Educational Articles
These article types include Oncology Grand Rounds, which are case-based descriptions of patient management that place the findings of Original Reports into a practical, real-world context. Understanding the Pathway articles provide a concise explanation of the biology behind a new drug or treatment approach. Biology of Neoplasia articles cover timely topics in the basic science of cancer.

Art of Oncology
Uplifting articles that focus on the experience of suffering from cancer or of caring for people diagnosed with cancer.
Content Available Only in *Journal of Clinical Oncology*!

**JCO Special Series**
Each year *JCO* publishes authoritative updates on important topics in oncology practice. Among other topics, the 2019 Special Series will cover:

- Palliative Care
- Cost of Cancer Care

**ASCO Meeting Abstracts**
Every year thousands of abstracts are presented at the ASCO Annual Meeting and thematic symposia that contain results of the latest clinical cancer research. These valuable findings are published as online supplements to *JCO* and are included as part of your subscription.

**ASCO Clinical Guidelines**
Using the best available evidence, ASCO expert panels identify and develop practice recommendations for specific areas of cancer that would benefit from the availability of practice guidelines. These recommendations serve as a guide for oncology professionals and outline appropriate methods of treatment and care.

Journal of Oncology Practice®

The Authoritative Resource for Practicing Oncology

Editor-in-Chief: John V. Cox, DO, FASCO, UT Southwestern Medical Center
Deputy Editor: James O. Armitage, MD, FASCO, University of Nebraska Medical Center

Journal of Oncology Practice (JOP) provides oncologists with information and tools to enhance practice efficiency and promote a high standard of care. With the addition of a new clinical section and today's heightened scrutiny of quality and value in cancer care delivery, JOP should be part of every medical library's collection.

IMPACT

JOP receives its first Impact Factor in June 2018. JOP articles have been indexed in MEDLINE since 2012.

FEATURES

Original Contributions
JOP research reports focus on cancer care delivery, quality and value, the business of oncology, and health policy issues. These reports feature new data and best practice approaches that oncologists can apply immediately to their practices.

Clinical Reviews
These practical reviews, each with commentaries written by recognized thought leaders in oncology, provide busy clinicians with expert opinions on challenging clinical problems. Every issue of JOP also features a Case Report that tells the story of a difficult case from the author's own experience.

Care Delivery Reviews
These review articles highlight the mechanics of oncology care delivery.

Quality in Action Library
These brief, structured papers provide actionable lessons and resources that inform and inspire oncologists to measure and improve the quality and efficiency of cancer care delivery.

ASCO Clinical Guideline Summaries
These helpful summaries provide clinicians with a user-friendly version of ASCO's full clinical guidelines.

Original reports and clinical reviews in JOP are enhanced by selected Editorials, Commentaries, and Podcasts that provide further insight and depth to the original research.
**JOP Special Series**

Each year *JOP* publishes special issues on key trends and benchmarks for quality care delivery.

**State of Cancer Care in America**

Released by the American Society of Clinical Oncology (ASCO) and published by the *Journal of Oncology Practice*, the State of Cancer Care in America report is a comprehensive look at demographic, economic, and oncology practice trends that will impact cancer care in the United States over the coming years.

**Quality Care Symposium**

This special issue brings you full-length manuscripts that describe several of the high-profile research presentations, as well as a select group of succinct summaries provided by symposium speakers.

**JCO® Clinical Cancer Informatics**  
An American Society of Clinical Oncology Journal  

**Editor-in-Chief:** Debra Patt, MD, MPH, MBA, Texas Oncology

**JCO Clinical Cancer Informatics (JCO CCI)** is an interdisciplinary journal publishing clinically relevant research based on biomedical informatics methods and processes applied to cancer-related information.

In addition to original research, **JCO CCI** publishes Reviews, Editorials, and Commentaries, reporting on biomedical informatics studies relevant to cancer treatment, care delivery, outcomes, and prevention. The publication also seeks papers that advance the development, interpretation, and clinical application of cancer informatics research.

Article types considered for publication include Original Reports, Reviews, Commentaries, Correspondence/Replies, Special Articles, and Editorials. **JCO CCI** also publishes research on how information systems help us learn from and improve cancer care, how they interact with each other, and how they will serve to advance the field of cancer medicine.

JCO® Precision Oncology
An American Society of Clinical Oncology Journal

Editor-in-Chief: James M. Ford, MD, Stanford University

JCO Precision Oncology (JCO PO) publishes Original Research, Reports, Opinions, and Reviews that advance the science and practice of precision oncology and define genomics-driven clinical care of patients with cancer.

Innovative and timely scientific and educational content provides a deeper understanding of actionable cancer genomics, personalized translational and clinical oncology research, and recent treatment advances based on tumor molecular profiling. The scope of publications includes all types of clinical research (basket trials, exceptional response results, informatics, mechanism and evidence-based case reports and small series of educational value), and extensive expert-driven commentary, editorials and reviews considering the challenges and value of targeted therapies based on genomic analyses.

Journal of Global Oncology® is an online-only, open access journal that fulfills a growing need for high-quality literature on the array of challenges that health care professionals in resource-limited settings face in caring for patients with cancer and in conducting research.

Currently, it is estimated that nearly 66% of all cancer deaths occur in low- and middle-income countries, and this is forecast to increase to 70% by 2030.¹

Journal of Global Oncology (JGO) focuses on cancer care, research, and care delivery issues unique to countries and settings with limited health care resources. Peer-reviewed articles cover:

- Cancer Treatment and Diagnosis
- Palliative and Supportive Care
- Prevention
- Implementation
- Barriers to Care
- Epidemiology
- Health Policy

Article types include Original Reports, Reviews, Commentaries, Correspondence, Special Articles, Case Reports, and Editorials.

Journal of Global Oncology Wins 2018 PROSE Award

JGO was honored with a PROSE award from the American Association of Publishers in the category of Innovation in Journal Publishing: Science, Technology and Medicine. JGO was recognized for its editorial fellowship program, which offers fellows the opportunity to learn about the workings of a peer-reviewed journal and practice their reviewing skills, under the mentorship of an Associate Editor. The program also enables those fellows to teach others what they have learned.

¹ Global Status Report on Noncommunicable Diseases: 2010. World Health Organization

Journal of Global Oncology makes all content freely available to all researchers worldwide.

Add this valuable resource to your library collection today!
**ASCO® Journals Digital Library**

**Keep Your Users Up to Date**
Get online access to four peer-reviewed publications with a single subscription. **You save 20% off the regular rates** and ensure that your users have access to the full range of oncology content from ASCO journals, including two publications in the promising fields of clinical cancer informatics and precision oncology. The subscription package includes:

- **Journal of Clinical Oncology**, now in its 37th year of publication, features the best therapeutic advances in oncology that are often adopted throughout the world. **36 issues, plus archive access back to 2004**

- **Journal of Oncology Practice** provides the latest health care delivery research for improving quality and value in cancer care. **JOP** also contains practical clinical reviews and case studies for busy oncologists. **12 issues, plus archive access back to 2005**

- **JCO Clinical Cancer Informatics** is an online-only journal that publishes clinically relevant research based on biomedical informatics methods and processes applied to cancer-related information. **Continuous publication, plus archive back to 2017**

- **JCO Precision Oncology** is an online-only journal that seeks to advance the science and practice of precision oncology and define genomics-driven clinical care of patients with cancer. **Continuous publication, plus archive back to 2017**

ASCO® Meeting Videos

Stay abreast of the latest cancer research presented by oncology experts at the ASCO Annual Meeting and thematic symposia held each year.

An ASCO Meeting Videos subscription allows your users to watch and listen to hundreds of captured sessions from ASCO meetings on their computer, tablet, or mobile device within 6–12 hours of these live events. Meetings included in

- **ASCO Annual Meeting**
  May 31–June 4, 2019
  Tap into the world’s premier oncology event with access to more than 150 sessions and 1,000 presentations across all disease types.

- **Gastrointestinal Cancers Symposium**
  January 17–19, 2019
  Discover novel approaches and emerging options for multidisciplinary care of patients with gastrointestinal cancers.

- **Cancer Survivorship Symposium**
  February 8–9, 2019
  Explore survivorship issues that both primary care physicians and oncologists encounter throughout the cancer care continuum.

- **Genitourinary Cancers Symposium**
  February 14–16, 2019
  Discover new scientific data alongside practical discussions of how to apply these emerging approaches in real-world GU oncology.

- **ASCO-SITC Clinical Immuno-Oncology Symposium**
  February 28–March 2, 2019
  Explore clinical and translational research in immuno-oncology and the implications for clinical care.

- **ASCO Quality Care Symposium**
  September 6–7, 2019
  Discover strategies and methods for measuring and improving the quality and safety of cancer care.

- **Palliative Care in Oncology Symposium**
  October 25–26, 2019
  Explore new insights on the increased integration of palliative care with cancer care.
An **ASCO Meeting Slides** subscription allows users to browse, review in detail, and download the slides that were used in the captured presentations (pending presenter permission) for the ASCO Annual Meeting and thematic symposia. The slides are high-resolution images suitable for use in your own presentations.*

### Benefits of an ASCO Meeting Products Subscription

- Search by presenter, keyword, disease track, and more
- Gain knowledge of detailed presentation data
- Access archive of previous ASCO meetings back to 2015
- No costly travel expenses or time away from work for users
- Usage reports available upon request

ASCO® Educational Book

Editor-in-Chief: Don S. Dizon, MD, Lifespan Cancer Institute

The **ASCO Educational Book** is a MEDLINE-indexed collection of articles written by ASCO Annual Meeting faculty and invited oncology leaders. Published annually, each volume highlights the most compelling research and developments across multidisciplinary fields of oncology and serves as an enduring scholarly resource long after the Meeting concludes.

The 2018 edition contains more than 90 articles covering all disease types as well as articles on immuno-oncology; surgical, radiation, and medical oncology; quality of care; global health; and survivorship, among other topics.

The *ASCO Educational Book* is peer reviewed by experts in the various fields of oncology and cancer research to ensure the highest scientific integrity and quality.

## 2019 Institutional Subscription Tiers

### TIER 1
- Single-campus associate and 2-year community college
- High school/secondary school
- Municipal or public library
- Private practice office

### TIER 2
- Undergraduate/baccalaureate or masters level college/university, non-PhD granting
- Statewide multi-campus associate and 2-year community college system
- Professional membership organization or industry trade association, limited to staff
- Health policy or advocacy non-profit institution or charitable organization, limited to staff
- Medical specialty certification board, limited to staff
- Community hospital not affiliated with a medical school

### TIER 3
- Doctoral university without a medical school
- Teaching or research hospital not affiliated with a medical school
- State, provincial, regional, or local government agency or ministry

### TIER 4
- Doctoral university with a single medical school or affiliated hospital
- Teaching or research hospital affiliated with a medical school
- Non-profit research institute

### TIER 5
- Doctoral university with 2 or more medical schools and/or affiliated hospitals
- Medical school with a health care system/clinics
- Hospital system or regional health care network
- For-profit university
- National government agency or ministry
- Government research institute or national research library
- Corporation or for-profit organization

### TIER 6
- Consortia or special license

### Important Tier Description Notes
1. All tier assignments are subject to periodic evaluation by the Publisher.
2. Institutions are assigned to Tiers 1–3 if they operate from a single site at a single geographic location except where noted. A single institution with more than one site or location (e.g., a research university with a teaching hospital or with multiple geographically dispersed campuses) is classified as Tier 4 and prices are negotiated. Individually negotiated multi-site licenses (Tiers 5-6) are required for consortia, corporations, and other institutions having shared network access.
3. For multi-site licenses, please contact the appropriate sales representative on page 16 for a quote.

Ordering Information

Place a Subscription Order
To obtain a quote or place an order, please contact your sales representative as noted above.

Site License
All institutional subscribers qualify for a site license. Site licenses provide online access for more than one viewing of content at a time via IP addresses. A site license subscription authorizes use at a localized site. A “site” is an organizational unit, and may be academic or corporate.

For organizations located in more than one city, each city office is a separate site. For organizations within the same city that are administered independently, each office is a separate site. For example, each campus in the State University of New York system is a separate site, and each branch or office of Merck is a separate site.

Payments
All subscription rates shown are in US dollars. Payment must also be made in US dollars. Payment methods accepted are credit card, checks, and wire transfers. ASCO Federal Tax ID number is 13-6180380.

Claims
Electronic back issues are available through our online journal archives. Printed copies of back issues are available for purchase at the single-issue rates. All orders must be made through ASCO Customer Service and prepaid in US dollars.

Printed replacement issues are available free of charge for up to three requests if request is received within 3 months of the mail date. Replacement issues claimed beyond the 3-month limit must be prepaid at the single-issue rates.
